

Application No.: 10/586,143
Filing Date: May 22, 2007

REMARKS

Restriction was required under 35 U.S.C. § 121 and 372.

- Group I: claim(s) 1-29, drawn to a method of regulating Toll-like receptor signaling or regulating immunomodulator secretion comprising administration of Cpn10.
- Group II: Claims 30-33, drawn to an isolated molecular complex comprising a TLR, a Toll-like receptor agonist and Cpn10.
- Group III: Claims 34-39, drawn to a method of producing, designing or screening a Cpn10 agonist or antagonist.

Response to Restriction Requirement

Applicants elect Group II, encompassing Claims 30-33, drawn to an isolated molecular complex comprising a TLR, a Toll-like receptor agonist and Cpn10. Claims 1-29 and 34-39 have been canceled solely because they are drawn to the non-elected inventions. No election of species is necessary in view of the cancellation of the Group I claims.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, Applicant is not conceding in this application that previously pending claims are not patentable over the cited references. Rather, any alterations or characterizations are being made to facilitate expeditious prosecution of this application. Applicant reserves the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history shall not reasonably infer that Applicant has made any disclaimers or disavowals of any subject matter supported by the present application.
